**Jury:** Kolínová Kristýna (DKP), Radim Ondráček (EKP), Venhoda Milan (SJI)

**Protests:** written, attached with 200 Czech crowns, presented to the Main referee v within time limit as per Pravidla OB text 26.1; by mail as per Pravidla OB text 26.2 to the address Petr Turczer, Revoluční 21, Šumperk, 787 01

**Parking:** managed by the organizer.  
 Personal vehicles park on the meadows of a private proprietor near the event center// [map](#). Parking fee is **50 Czech crowns/vehicle/both days**. While walking from the parking place to the event center, you will cross the road no. 11. The Police of CR has agreed to limit the driving speed here, but please pay increased attention to your safety anyway.  
 Buses will drop the racers by the Ztracenka cottage // [map](#) // And will leave to park at Skřítek (3km) // [map](#) // or to another parking lot by the road no. 11 (1,7 km) // [map](#).

**Dressing room:** it is possible to build the club tents, but it is forbidden to stay there over night from Saturday to Sunday

**Toilets:** TOI-TOI in the event center and in the quarantine for both days, environment friendly.

**Washing:** water tank with buckets in the event center

**Restricted area:** woods around the event center are a racing area and entering them is forbidden (except for the marked path to the Start), another restricted areas are marked in the map as the red cross-hatched sections – see below for more information

**Terrain:** Mountain forest in the elevation of 700 – 960 meters. Prevailing coniferous (evergreen) forest. Runability differs across the forest – ranging from clean areas to mountain thickets, which make orientation difficult. There are many rocks, boulders and stones in the terrain. Irregular network of paths, tracks and roads has moderate density. The valley sections of the forest are mostly marshes with low visibility and many swamps, amelioration furrows and streams. The terrain is very rich with different kind of details like rocks, boulders, knolls, depressions, runnable marshes, thickets, clearings etc. The running underlay is heavy – corresponding with a mountain forest. There is only a very little seasonal undergrowth in the terrain.

**Course param.:** published on the race web and in the event center

**Punching system:** electronic – SportIdent. A single SI-chip can only be used once in a race. In case of electronic punching system failure the runners need to punch in the fields on the map and are required to report this in the finish. The fields for mechanical punching are found by the lower edge of the map.

**Expected winning times:** follows the valid Orienteering competition regulations of ČSOS.
